

Marsh Exploration

All Ages

Why are wetlands important? What is a watershed? Explore the marsh to learn the many tasks a wetland manages. Observe how your local watershed works while observing the flora and fauna of the area. Study the streams and interact with aquatic macroinvertebrates! (Wear water boots or shoes!)

Insect Safari

Preschool - 5th grade

Explore the marsh while searching for insects. Enjoy activities that teach about bug basics, special adaptations, insect eyes, and more about the bug world! Study the streams and interact with aquatic macroinvertebrates! (Wear water boots or shoes!)

Habitat Hoppers

PreK - 1st grade

Hop from habitat to habitat as we learn about the plants and animals that call Millbrook Marsh home. Explore fields, woodland, and wetlands with your very own naturalist. Learn about what animals and plants need to survive. Learn how animals use their superpower animal senses and try them out for yourself.

Plants and Pollinators

2 - 5th grade

Join us as we jump into the world of plants and their animal helpers. Learn the important parts of a plant through hands on activities. Discover what they need to grow and how they spread their seeds. Meet a variety of pollinators that help the plants make seeds.
